

	Outrup Vinduer og Døre A/S Outrupstræde 31, DK-7900 Nykøbing Mors Telephone +45 96708200 - www.outrup.dk 16	
	Doors and windows for facades - Made for buildings Type: TræFront 3-glazed A - doors and windows Material: Pine (Scandinavian heartwood pine)	
DoP ref.: Nr. 017/CPR/2020-12-08 EN 14351-1:2006+A2:2016		
Thermal transmissions coefficient (U-value)		
1-sash opening window 1230 x 1480 mm with standard float glass		0,91 *
Flush door 1230 x 2180 mm with 2 standard float glass		1,03 *
Transmittance properties		
Solar heat transmittance (Standard Float Glass)		0,61
Light transmittance (Standard Float Glass)		0,75
Other performances		
Carrying capacity of the safety furniture (topturn window)		Approved
Wind load		NPD
Water-tightness		NPD
Acoustic performance		NPD
<i>NPD: no performance determined</i>		

* The individual thermal transmission coefficient (U-value) is available for all windows upon request to Outrup Vinduer og Døre A/S according to EN 14351-1:2006+A2:2016, Table E.1 note c.
