 2016

EN 14351-1:2006+A2:2016
 Entrance door - Made for buildings

Type: TræFront double glazed B – cpr/nr.011

Material: Pine (Scandinavian heartwood pine)

Thermal transmissions coefficient (U-value):

- Standard constructed door of 1230 x 2180 mm with 2 standard panes: 1,41*
 - Flush door of 1230 x 2180 mm: 0,85*

Wind load:	npd
Water-tightness:	npd
Height:	npd
Acoustic performance:	npd
Air-tightness:	npd

npd: no performance determined

* The individual thermal transmission coefficient (U-value) is available on all doors on request according to EN 14351-1:2006+A1:2010, Table E.2 note d.
