EN 14351-1:2006+A2:2016  
 Entrance door - Made for buildings

Type: TræFront triple glazed A – cpr/nr.010

Material: Pine (Scandinavian heartwood pine)/Aluminium

Thermal transmissions coefficient (U-value):

- Standard constructed door of 1230 x 2180 mm with 2 standard panes: 0,83\*  
 - Flush door of 1230 x 2180 mm: npd

Wind load: npd

Water-tightness: npd

Height: npd

Acoustic performance: npd

Air-tightness: npd

npd: no performance determined

\* The individual thermal transmission coefficient (U-value) is available on all doors on request according to EN 14351-1:2006+A1:2010, Table E.2 note d.
